

The Quest

Destination Anywhere

Now it's coming up again and I scream
Is there anybody listening?
All those words again all this shit again
Nightmare I don't care don't share welfare
I don't even care if our past is treated unfair
Is there anybody who can tell me where I stand
Is there anybody who can tell me who I am
Is there anybody who can tell me what the f*ck
Is wrong with them and with what I love

I don't know what's right and wrong
What doesn't kill will make us strong
The quest is going on
All my days and through the nights
Are those argues worth the fight
I don't know where I want to be
My fantasy is taking me away

And I cannot bleed no more I'm sick
Of always feeling down hit
Me in the face I'm deaf and disgraced
And I don't want to be what you want me to be
I don't my best but you don't want to see
Done with it all it's the final line
Done with it all it's the final rhyme

I don't know what's right and wrong
What doesn't kill will make us strong
The quest is going on
All my days and through the nights
Are those argues worth the fight
I don't know where I want to be
My fantasy is taking me away

I don't know what's right and wrong
What doesn't kill will make us strong
The quest is going on
All my days and through the nights
Are those argues worth the fight
I don't know where I want to be
My fantasy is taking me away
