Sinking Sand

Destine

I see you run
Run as fast you can now
It's getting harder and you're outta time
'Cause you know
I've been gasping for air
I'm weak at the knees and we both know why
Oh don't wait or you will be the first to go
So leave me here behind

And sinking sand keeps pulling me in too deep
It might be best for you to pass me by
I'd safely bet to wait for your company
So don't you save me now, no not this time

So hold me down
'Cause the water is rising
It's getting harder now to turn the tide
I can scream
From the top of my lungs
I can scream for safety nets and good advice
Oh don't wait or you will be the last to know
So please leave me here behind

And sinking sand keeps pulling me in too deep
It might be best for you to pass me by
I'd safely bet to wait for your company
So don't you save me now, no not this time

Don't wait or you will be the last to know
So leave me here behind

And sinking sand keeps pulling me in too deep
It might be best for you to pass me by
I'd safely bet to wait for your company
So don't you save me now, no not this time
So don't you save me now, no not this time
So don't you help me now, no not this time
So don't you save me now, no not this time
