Born in the world of unheard voices, a privilege for spotless daughters

Talk like a duck, think like a dog

Believe me, you must be careful,

You risk to gain just breadcrumbs

Bounce! Now look behind, you've lost your brain

For find a new "all wise"

Completely drunk of this GAME

Running through this way

Just to hear me say "you're OK!"

Layout of public affair

No observations

Your far-out world will fade!

Hating the masses annoying you

But you're waiting for the biggest front page

Let's talk about your beautiful smile, it's just good to make me cry

Fake like a dolls, fake like your eyes

Fake like the words you said, erase

Your stupid trust, your fucking drugs

You're fancy careful perfect mask

Welcome back to my real world,

Where people toil for one crumb!

Completely drunk of this game

Bring me outside, I need more than this offer

A happy end could be great...

Illusion of self worth...

Just for being famous!

Enjoy your high life style

Massy and blind consumer!

You find your skills in shoppers

Dresses and plastic cure!

Bought at a middle price... conscious of those deeds... you've continued your best trip

Despise the fan who feeds you... you are a benefactors traitor, burn!

Plastic on your face, without exceptions, you are my greatest enemy

Greeting from the crew, and from your "master"

Intent to exploit your image!
