

## Goddess Of Drought

Destroyer

My work was a sham, your work was a sham...

I took a bribe, you took a bribe...

And let them insult your body with fineries and silken things..

.

How could you not have known you wouldn't need those rings for the scene,

When it's called "Goddess of Drought Figures Us Out"?

I was looking good on the day that you fell for the way I looked...

The day your beauty became a sign of something more than a beautiful sign...

But now someone had better bless this meal before someone gets sick off of what they didn't kill

And the Goddess of Drought figures us out...

I can tell you want peace...

Oh I can tell you've been looking for a union...

I have seen it in your eyes...
