

Goddess Of Drought

Destroyer

My work was a sham, your work was a sham...
I took a bribe, you took a bribe...
And let them insult your body with fineries and silken things..
.
How could you not have known you wouldn't need those rings for
the scene,
When it's called "Goddess of Drought Figures Us Out"?

I was looking good on the day that you fell for the way I looked...
The day your beauty became a sign of something more than a beautiful sign...
But now someone had better bless this meal before someone gets
sick off of what they didn't kill
And the Goddess of Drought figures us out...

I can tell you want peace...
Oh I can tell you've been looking for a union...
I have seen it in your eyes...
