

# Cyanide

## Destruction

We all look for affection  
And feel the need to succeed  
We wonder why others fail  
'Cause we're the best of breed  
We play our roles and act  
Pleasant and fake  
The human factor has diminished  
A fatal mistake  
Eliminate  
All your weakness called trust  
Suffocate  
On your desire and disgust  
Hellride  
Cyanide dreams  
Looks like suicide  
Cyanide dreams  
Hellride  
Cyanide dreams  
Looks like suicide  
Your deeds will not count  
In the final end  
Your hope made you think  
You are godsent?  
A big mistake to trust  
And give away your pride  
With backs to the wall  
Dreams will collide  
Eliminate  
All your weakness called trust  
Suffocate  
On your desire and disgust  
Hellride  
Cyanide dreams  
Looks like suicide  
Cyanide dreams  
Hellride  
Cyanide dreams  
Looks like suicide  
Cyanide  
My vengeance  
Makes you sleep little creep  
Cyanide  
Enjoy the silence  
Slow and deep  
Cyanide  
Taste my revenge  
Nothing's like it seems  
Cyanide  
Eternal peace  
No more screams  
In a world of winners  
There ain't no place for disbelief  
Run like a well-oiled machine  
Or numb with grief  
Strength of demand  
Is a gift you have to earn  
We are on this bloody world

To fuckin' learn!  
Eliminate  
All your weakness called trust  
Suffocate  
On your desire and disgust  
Hellride  
Cyanide dreams  
Looks like suicide  
Cyanide dreams  
Hellride  
Cyanide dreams  
Looks like suicide
