

Die a Day Before You're Born

Destruction

Don't try to reach light of day
Then you will never be in trouble
As soon as you're here they interfere
And start to fill your brain with crap
Die a day before you're born
Die a day before you're born
You'll be carried to church
They'll drown you in water
Just to give you a name you will hate
They make believe in lies and deceit
Make you a part of human greed
Enjoy the place where you are
So cozy and warm
Suspended in a big fat belly
Commit suicide before the real life begins
And cut your navel string
Die - nine months are enough - a day before you're born
Die before the dreadful dawn
