## Destruction

I hate what I am and I hate what I do Alternatives here I sit and wait for you There are no cats in the bible did you know God's breath is cold when you're drunk and far from home Life - I am god gifted with life I am video incarnate Zapping from channel murder to channel rape I'm pretty much into human evil I'm personified hunger And if I'm gonna survive this airplane crash I'll take a knife and a fork and start eating people Would you like to hear a story So obviously of negative intent - yeah Do what you will We are god gifted For my mum a letter I'm about to fall I'm the least successful human cannonball
