

Savage Symphony of Terror

Destruction

It's inside my brain, it drives me insane
It's eating me alive into the pits of black
A faithless payback? Evil twisted mind
Twisted reality makes me feel low
Blood driven infinity, welcome to the freak show
The symphony is killing me
The symphony
The savage symphony of terror
Narrow downright lad, voices in my head
Strapped and burlled, killing deep dark hole
Burning lonely soul? Prohibition is your foe
To fate or to remain, a fatal part of the game
Would it change your role, if nirvana's just a dark hole?
