## Savage Symphony of Terror

Destruction

It's inside my brain, it drives me insane It's eating me alive into the pits of black A faithless payback? Evil twisted mind Twisted reality makes me feel low Blood driven infinity, welcome to the freak show The symphony is killing me The symphony The savage symphony of terror Narrow downright lad, voices in my head Strapped and burled, killing deep dark hole Burning lonely soul? Prohibition is your foe To fate or to remain, a fatal part of the game Would it change your role, if nirvana's just a dark hole?
