

Sorcerer of Black Magic

Destruction

On the razor's edge I kneel all this can't be real
Every soul stands for a death!
Where are my illusions all those fake conclusions
Will this now be my last breath?
Like a slow motion flick □ but this fear ain't a trick
My live is rushing through my eye!
Panic grabs my mind □ Now the daily grind
Seems unreal I can't deny!

[Bridge:]

Rich man □ Poor man □ Beggar man □ Thief
In the face of death □ They all start to believe

[Chorus:]

Sorcerer of Black Magic □
Preacher of an unseen god
Sorcerer of Doom □
Make you pray for your decay
Sorcerer of Black Magic
When time is up
□ There's no more need for a clock
To late to fucking justify!
This fatal vortex now shows the final round
My regrets I can't deny!
I had too many challenges
□ Broke down all the fences
When time was right I did fail!
Wealth is an earthly chance
□ Dance the final dance
Dark forces will prevail!

[Bridge]

[Chorus]

Master of Sadism King of Hedonism
On judgement day we are all the same!
Evil spirit crying all mankind is dying
No hope for the lost souls

[Bridge]

[Chorus]

Sorcerer of Black Magic □ There's no escape
Sorcerer of Black Magic □ And no control
Sorcerer of Black Magic fond belief
Sorcerer of Black Magic □ The bell tolls
