

# Sorcerer of Black Magic

Destruction

On the razor's edge I kneel all this can't be real  
Every soul stands for a death!  
Where are my illusions all those fake conclusions  
Will this now be my last breath?  
Like a slow motion flick □ but this fear ain't a trick  
My live is rushing through my eye!  
Panic grabs my mind □ Now the daily grind  
Seems unreal I can't deny!

[Bridge:]

Rich man □ Poor man □ Beggar man □ Thief  
In the face of death □ They all start to believe

[Chorus:]

Sorcerer of Black Magic □  
Preacher of an unseen god  
Sorcerer of Doom □  
Make you pray for your decay  
Sorcerer of Black Magic  
When time is up  
□ There's no more need for a clock  
To late to fucking justify!  
This fatal vortex now shows the final round  
My regrets I can't deny!  
I had too many challenges  
□ Broke down all the fences  
When time was right I did fail!  
Wealth is an earthly chance  
□ Dance the final dance  
Dark forces will prevail!

[Bridge]

[Chorus]

Master of Sadism King of Hedonism  
On judgement day we are all the same!  
Evil spirit crying all mankind is dying  
No hope for the lost souls

[Bridge]

[Chorus]

Sorcerer of Black Magic □ There's no escape  
Sorcerer of Black Magic □ And no control  
Sorcerer of Black Magic fond belief  
Sorcerer of Black Magic □ The bell tolls
