Sorcerer of Black Magic

Destruction

On the razor's edge I kneel all this can't be real Every soul stands for a death! Where are my illusions all those fake conclusions Will this now be my last breath? Like a slow motion flick \square but this fear ain't a trick My live is rushing through my eye! Panic grabs my mind □ Now the daily grind Seems unreal I can't deny! [Bridge:] Rich man 🛛 Poor man 🗆 Beggar man 🗆 Thief In the face of death D They all start to believe [Chorus:] Sorcerer of Black Magic D Preacher of an unseen god Sorcerer of Doom 🛛 Make you pray for your decay Sorcerer of Black Magic When time is up $\hfill\square$ There's no more need for a clock To late to fucking justify! This fatal vortex now shows the final round My regrets I can't deny! I had too many challenges □ Broke down all the fences When time was right I did fail! Wealth is an earthly chance □ Dance the final dance Dark forces will prevail! [Bridge] [Chorus] Master of Sadism King of Hedonism On judgement day we are all the same! Evil spirit crying all mankind is dying No hope for the lost souls [Bridge] [Chorus] Sorcerer of Black Magic 🛛 There's no escape Sorcerer of Black Magic [] And no control Sorcerer of Black Magic fond belief Sorcerer of Black Magic 🗆 The bell tolls
