

World Domination Of Pain

Destruction

It knocks at the door - no ones been there before
Questions and fear - the big change is near.
Can we read the signs - about mankind's down fall
Prophecy of truth - millennium scares our youth.
Will the forecasts prove - what old legends did tell
In the decade of pain - no one will remain
Desperate eyes - watch the burning skies
Killing machines - death bringing dreams!
Centuries ago
- some wish man did know
about our spell
- we'll all go to hell!
In the 7th month 1999
The king of terror will start his death machine
The 3. Antichrist will turn sun into darkness
His domain will be creeping success
World domination of pain
World domination of pain ...
One thousand years of wars,
Who knows what's the fucking cause,
A world domination of pain,
The millennium of the insane!
World domination of pain ...
