

# Nothing Dies

Desultory

Peel away the skin that hurts  
Peel away the skin that burns

Turn away from all you know  
Turn away to save your soul

Peel away the skin that's cold  
Peel away the skin that's old

Will I ever touch the sun again?  
Will it blind my eyes and ease the pain?  
Will I ever burn my hands again? Nothing ever stays the same

See through the lies  
See that nothing ever dies  
Nothing dies, nothing ever dies
