

A Traitor Amongst Them

Dethklok

It appears as though Dethklok is going to rescue their "bandmate"...

And if they fail, we could lose everything...

I could save them, or I could kill them, but I will do your bidding, my masters...

So much better now that he is under your control.

Yes... but you should know that we have a traitor amongst Dethklok,
and when the time is right, they will be put into action... but
for now, we must watch them.
