

## Abigail's Lullaby

Dethklok

Don't be scared my little friend.  
I am here with you.  
Things have gotten so bad.  
But I am here with you.  
We'll most likely die.  
They'll pull off our skin.  
They'll poke out our eyes.  
They'll play in our blood.  
Be cannibalized.

They'll bath us in acid.  
They'll chew through our brains.  
They'll chop up our guts and cut up our veins.  
But close your eyes. Drift away.  
Dream into your happy place.  
Remember the finest moments in your life.  
It's your power and your strength.  
Your happy place.  
Go there now. Now. Go. Go there now.
