

# Andromeda

Dethklok

Walking bleeding lurching seething  
Dying from the dawn of time  
Fester weakling cursed like a demon  
To walk this earth alive  
Chaste and cast out waiting to blast  
Out a life lived patronized

Liberation blackened evasion  
Scythe and medea punishment is near

Pistillate artifice  
Ophidian sacrifice  
Widow maker  
Vindicator

Bring us the heads of the demon daughters  
The vessels of sickness  
A planets disease  
The sirens they sing to us  
A horrid fable

The snakes of Medusa  
Will strange your soul  
I see you I cruise you to be my heart  
I hate you I am you doomed to this Earth

Drowned in Andromeda's piss the  
Serpent slain dies forever  
Bleed on the floor like a bitch the  
Bloody rift leaks deth  
How can you still be alive?  
How can you still be alive?

Pistillate artifice  
Ophidian sacrifice  
Widow maker  
Vindicator

Uterine magistrate  
Sinister aggregate  
Contrive conclusion  
Deht diffusion  
Sycthe and Medea punishment is near  
Hades beheaded nothing regretted

Drowned in Andromeda's piss the  
Serpent slain dies forever  
Bleed on the floor like a bitch the  
Bloody rift leaks deth  
How can you still be alive?  
How can you still be alive?
