

Blazing Star

Dethklok

The union crows the time its birthed
Clouded clusters descends to Earth
The epilogue becomes foul to bring
This signifying of the death of a king
I am a man with a tortured sight
I fear this dream will end tonight
The water beast continues singing
We try to wake but we're not dreaming

I'm gonna find you
upon the end of time
I gotta pay this fine
This is my only life
With this power
I am endowed
The end is coming
So bring it down now

Hold! Keep the wheels inside!
Oh! You gotta kiss this life goodbye!
There is another place beyond we'll meet in time!
And I will preach you on and on next life!

The Blazing Star!
It burns so bright!
The dark, empowered!
The deathly light!
Bring it on now!
This is our time!
With our known regime!
Together we'll fight!
Bring it on now!

The Blazing Star!
It burns so bright!
The dark, empowered!
The deathly light!
Bring it on now!
This is our time!
With our known regime!
Together we'll fight!
