

# Crush the Industry

Dethklok

The drones keep moving  
Push rocks up the mountain  
The Ice will slow you  
You wither and fray

Protect your lifeblood  
The power feeds you  
A slight sink in the structure  
And it all goes away

Crush the industry  
No security  
Capital is worthless now  
Your life I inside trade

Modernize  
Desensitize  
Re-colonize  
Downsize

Watch it fall  
Before your eyes  
The numbers drop  
Your money dies

Emptiness  
Where there once was  
There's nothing

Borrowing  
From government  
There's nothing

Commodities  
The dying swine  
The foul  
Chemical waste

Harvesting  
The rotting mouths  
The molten gold is  
Poisoned trash

Crush the industry  
No security  
Capital is worthless now  
Your life I inside trade

Crush the industry  
No security  
Capital is worthless now  
Your life I inside trade

Crush the industry! (Crush The Industry!)  
Crush the industry! (Crush The Industry!)  
Capital is worthless now (Crush The Industry!)  
Your life I inside trade! (Crush The Industry!)
