

# En Antris et Stella Fatum Cruenti

Dethklok

Abigail and Toki,  
they lie beyond these walls.

It must be you that rescues them  
but I can help you through this door.

It's times like dis I wonders,  
should we be a one guitar band?

I still think you're crazy fools.  
A set up is at hand.

Well I think we in for the fight of our lives.

Is it all worth it? One of us could die.

Hold them all together while I make my way.  
This will be an orgy of DEATH. Throats will meet my blade.

Ho, I think this set up is a trap.  
Yes I'm telling you.  
There's no way to escape.  
They've got us surrounded.  
We're unarmed and naked.

No one's on their way  
to come and save the day.  
No one's on their way,  
No one's on their way.  
No one's on their way  
to come and save the day.

Run! I order you.  
I'll create a distraction  
so you can get through.  
Don't look back whatever you do.

You... let them get away.

I do not fear you.

Then you are a fool. And you will die.  
Arrggggggghhhh,

What have you done?  
You've murdered him.  
That wasn't part of MY plan.

This was never your plan.
