

I Believe

Dethklok

I can't believe this is really happening to me?
Just yesterday I was a kid on the streets.
My family, they didn't care about me.
Now I've got my own and I can do anything.

Yours my brothers now.
Lives together now.
I have found a home.
Never be alone.

We just put our album out.
We just went to number one.
We just found our fanbase now.
We are making money now.
Use it to buy everything.
Dethklok getting powerful.
We are known across this world.

I believe this is my dream come true.
And I never thought I'd have a family
but that family it is you.
Now I can see happiness is for me it true.

This is such a strange new crazy life.

Everything is better now that he is in the band these times.

I've never been so happy in my life.
My brother gives me the power to survive.

I believe this is my dream come true.
And I never thought I'd have a family
but that family it is you.
Now I can see happiness is for me it true.
I believe. (10x)
