Dethklok

We climb molten rock  
Sweating bleeding we can't stop  
Dream demons whisper spells  
To punish the dwellers in earthly hell

Starved still we reach the top  
Close our eyes look toward the Gods  
Summon fire from the Earth  
Incite the flames we fear not Deth

Magma heats  
We fear not Deth  
Duncan hills  
We fear not Deth  
Molten Rock  
We fear not Deth  
Volcanic Kills  
We fear not Deth

Mantle crust ignites  
Bleeding heated birth  
Will we die tonight?  
Punished by the Earth

Highland fires  
Run for shelter  
Incantations  
Help no better  
Frozen Human  
While they're fleeing  
Live forever  
Horrid sculpture  
Forever screaming

Mantle crust ignites  
Bleeding heated birth  
Will we die tonight?  
Punished by the Earth

Come and take us  
We mock your anger  
We laugh at your power  
We fear not Deth  
We fear not Deth

We challenge your fury  
We'll dive in to lava  
And burn like we're cinders  
We fear not Deth  
We fear not Deth

We fear not Deth
