

Dreams

Deuce

You showed me all of your dreams
You showed me all of your fears
Now I see that your alone

Now I see that you fell apart again
and I can see that we're near the end
Now I see that you fell apart again
and I can see that theres nothing left

You made it harder to feel
You made me see everything
Now I see that your alone

Now I see that you fell apart again
and I can see that we're near the end
Now I see that you fell apart again
and I can see that theres nothing left

The nights go by
as you slip away
All these thoughts they're just a shade
Tomorrow's gone
so heres our song
Before the light goes we'll stay long

Now I see that you fell apart again
and I can see that we're near the end
Now I see that you fell apart again
and I can see that theres nothing left
