

Mute

dEUS

I, I knew a girl and she was a joker
Her hair was nicotine-brown
And eyes of a joker

Her grass has a pale ginger green
Whatever that means

Together we
Saw they were building a building
Alone I see
The building is there

Her grass has a pale ginger green
Whatever that means

Your mind goes (3x)
This has nothing to do with you
It's just the way that I turn to you

Your mind goes (3x)
Cause this has nothing to do with you
It's just the way that I turn to you

You see I
I knew this girl and she was a joker
And if she was so big
I guess I would smoke her

Her grass has a pale ginger green
She knows what it means

Your mind goes (3x)
Well this has nothing to do with you
It's just the way that I turn to you

Your mind goes (3x)
And this has nothing to do with you

I'm calling it off |
I'm taking it low |
I'm staying ahead of our soul | (4x)

Your mind goes (3x)
Crawl so damn low
I'm calling it off - Your mind goes
I'm taking it low - Your mind goes
I'm staying ahead of our soul - Your mind goes
