Time won't be soon mine in time I guess  
She's painting on my back a beautiful flowerpot  
And she treats me she treats me she treats me like her local go

Rose said quote it's time to make a mess  
This one's yours and yours is self obsessed  
She's painting on my back a green tom, the Beefheart one  
And she cuddles and she coos and she cuts the bullshit I confes  
sed

She said: "Don't look my way  
What can I possibly say  
I've never seen you before today  
I'm just the one that makes you think of the one  
That makes you feel like you're the one."

But thank you for the roses for the roses  
So thank you for the roses for the roses  
Thank you for the roses for the roses (2 times)

Rose said quote it's time to make a mess  
Remind me what it is that I do best  
She's painting on my back some beautiful something sweet  
And she treats me, she treats me, she beats me  
Rose said quote my time has come at last  
Ugly things through my mind they have passed  
She's scratching on my back 'if this boy believes me'  
She leaves me, deceives me and takes those flowers just to

Please me

Rose don't mind where she been

She been blind

She been mine

All this time

She been kind

She been blind

She says: "Thank you for the roses for the roses."

Just to thank you for the roses for the roses

Just to thank you for the roses for the roses

Just to thank you for the roses for the roses

Just to thank you for the roses for the roses

Just to thank you for the roses for the roses

Just to thank you
