

## Second Nature

dEUS

Get up in the morning  
Day is a freight train  
Carrier of sorrow  
Pleasure and caffeine  
Copy/paste, keep or waste  
Myriads of options  
(Always choose the same flavour anyway)  
Freedom is ours

Freedom is choice, choice  
Choices that liberate  
Day is a freight train  
Minutes obliterate  
Easier to break through  
Meters of concrete  
Easier to connect  
To a full grown tiger

Sense of entitlement  
You act like an accident  
The world is your oyster  
But it ain't the season yet  
Flirt with the absurd  
It's absurd to hurt  
You know love can be curt  
And eager and dangerous  
Eager and flirtatious

Through the ages over perfect storms

Rain and snow  
Hardship and danger zones  
Excavated from the rocks of old  
An ageless soul  
Soldiered on, flesh and bones

And it's our second nature  
And it's our time, your god dethroned  
Flesh and bones  
And danger zones

Did you get the warning  
We're still on the same train  
Full of longing  
Sugar and nicotine

What is here will disappear  
When longing is gone  
They say  
"Freedom is near"

Freedom is choice, choice  
Choices eliminate  
Day is a freight train  
Computers communicate  
Easier to break through  
Top of the pop-charts

Easier to connect to an electric wire

Never give in, it's in our nature
