

Baby, We Go

Dev

Say you're walking away, say you're walking away
Feelin' my face change
Feelin' my space get smaller by the second
Why'd you leaving tonight?
Why'd you leaving tonight?
Tried to catch the first fly
I love these tears- just show my reflection

I fuck with you so duh-uh
And considered you my first love
This ain't something I can do of
Boy, you're all I ever think of

Let's star over (start over)
Let's say hello
When we're together (when we're together)
Baby we go-o-o
We go-o-o
Here we go-o-o
Baby, we go

I almost lost you once
That was more than enough
I realize you were meant to hold my hand
Now I'll never let you leave (Now I'll never let you leave)
This ain't me,
Believe, we got too much to lose and understand

I fuck with you so duh-uh
And considered you my first love,
This ain't something I can do of
Boy, You're all I ever think of (think of)

Let's star over (start over)
Let's say hello
When we're together (when we're together)
Baby we go
We go-o-o
Here we go-o-o
Baby we go
