

Foolin' on the human population
I know my mind's on the front line
But when I'm lovin' on the human population
Thank God my heart's playin' its part

One day, one day at a time
One day, one day at a time

Love is the birth of a nation
Born from the good womb of humankind
All these stories of creation
Came from the same flame of the most high

One song, one song at a time
One song, one song at a time

Fearing oh I'm sure gettin' better
With every morn a new fear is born
But when I'm trusting trusting trusting
Knowing that we're in it together
Free to face unknown, free to overcome

One day, one day at a time
One day, one day at a time
