

## My Ships

Devendra Banhart

My ships are frozen sticks  
They lay stuck to the floor  
My wrists and my breasts are bleeding bricks  
They don't float anymore

And my tongue, it's a carbine scrolled  
Doesn't run anymore

And my friends are all useless lense  
They don't see anymore  
And all my chicks are all useless hens  
They don't lay anymore

And my fists are plastic dice  
They're the shape of the sun  
Yeah

And my love is a so long song  
Gone forever more  
And I like where I  
Yeah, I love where I  
And I like where I live
