

The free will is in  
Let the disobedience begin  
To hate from glad  
All your children have gone mad  
The free will is in  
Savages fucking drinking blood  
In sin incinerate - on oppressor retaliate

Limitless I am distress I bow down to no law  
I am the looting fucking fiend who eats the priest's flesh raw  
Carnivore, a mammal whore, reborn for personal war  
I don't believe what you perceive I take and live you just deceive  
All your lies are fearful preachings - jaws of jackal shred your teachings  
Feed the jackal

Jackal, jaws of the jackal discourage  
Ravenous breeding you are bereft  
Jackal, my jaws are your death

The free will you hate  
Damn your cast outs but it's too late  
To change to pain  
All your children are insane  
The free will you hate  
This orgy of aging flesh is just too great  
All none besides  
In vice are allied

I don't believe what you perceive I take and live you just deceive  
All your lies are fearful preachings - jaws of jackal shred your teachings  
Feed the jackal

Feel your lies vibrating from ivory towers tall  
Our bon-fire lit Pagan way of life impossible to enthrall  
Feed the Jackal

Jackal, jaws of the jackal discourage  
Ravenous breeding you are bereft  
Jackal, my jaws are your death

A haunting tune that sticks  
An ancient lunatic  
Screams at the fullmoon  
Where the untamed madness blooms

Feed the jackal
