

## I Remember

Deviates

When I think of my youth, I don't remember you, you weren't the  
re  
You didn't care, you still don't care, you never cared if I did  
, but I don't  
It was a dream I had no choice, I couldn't scream I had no voic  
e  
To say or do anything, I was all alone and the hate did grow  
And I remember what its like to be different, a constant fight,  
ya, I remember  
You couldn't see no you couldn't feel, wake up from the dream j  
ust to find its real, yeah I remember  
My mind was full of hate, my heart was empty I couldn't take it  
It was your choice to leave, I hated you, did you hate me?  
A fight for custody, over me, a piece of property, just filled  
me w/ confusion  
Empty thoughts, anger & illusions.  
Do you remember me, that whining kid, that crying baby  
The hate has evolved, problem solved, you don't exist, its all  
your fault  
Yeah I remember what its like to be a kid, that's not my life  
You're nothing to me, you never were, that's pretty lame  
I guess that's just the way it goes... but I remember
