

I thought you were the one
The one to make me come
You only drove me nuts
I hate your fucking guts

You seem just like a dream
You were so sweet to me
You had shit up your sleeve
You were so fucking mean

You said you'd always please me
And that you'd never leave me
You said as you held me as tight as you can
So what do you mean that you're not my man?

You make me mad
You made me sad
You make me think I'm bad
You're not my fucking dad

You said you'd always please me
And that you'd never leave me
You said as you held me as tight as you can
So what do you mean that you're not my man?
What do you mean that you're not my man?
What do you mean?
