

## Salvation Lies Within

### Devil Sold His Soul

A barren lining in the darkness  
A weakness in our lives  
The shade of dusk can make us feel alone

Hopeless shaking in the dark clouds  
You open up my eyes  
You hold me up to understand  
You say, "hold on, hold on"

Your open arms will shield the winter  
You open up my eyes  
Without despair we hold the path  
You say "hold on, hold on"

But I can hardly see the vacant expression in their eyes  
I'm not losing all the things that ever mattered to me

Hopeful moving through the cold light  
You've opened my eyes  
The mist will be clearing and the light will shine through.
