

# Daybreak

DevilDriver

Never relent  
Throw yourself  
Never relent  
Through yourself to the future!  
This blood moon  
Begins with a guarantee  
And mercury  
It ends in retrograde!

It's just  
Bleeding me dry  
So don't even try to say goodbye  
Resentment  
Yes I harbor some  
So don't even try to say goodbye

This is not over now  
I'm far from down for the count  
I hear it beckoning now  
I'm far from down  
Come out full guns blazing

I'll never forget  
I may forgive tomorrow  
I'll never forget  
The years of sorrow  
This blood moon  
Begins with a guarantee  
And mercury it ends in retrograde!  
This time it ends in retrograde  
I can hear it beckoning

I'm far from down for the count  
I'm far from down for the count  
Come out full guns blazing  
This is  
Not over now  
I'm far from down for the count  
I hear n beckoning now  
I'm far from down  
Come out  
Full guns blazing  
Hell raising!  
All guns blazing!

The powers at be  
The faces of God  
Are a one-way mirror  
As we hover above  
Mangled tangled  
A one-way mirror as we hover above!

This is  
Not over now  
I'm far from down for the count  
Come out full guns blazing  
This is not over now

I'm far from down for the count  
I hear it beckoning now  
Am far from down  
Come out full guns blazing  
Hell raising!  
Never relent!
