

Desperate Times

DevilDriver

Holy water won't help you now!
Here I lie, when it promised me death
On my last breath
Short changed
So show some backbone
Keep a bad dog with you and the others won't bite
Damn what's done
It's been done already
Keep it steady!
Here I come and hell is coming with me
Heart is black, body is blue
Nights I've empathized drowning with you!
You raise up
My cup
Defeat does not exist!

Desperate times
Call for desperate measures
Go ahead and pour that gasoline
Desperate times
Call for desperate measures
Nothing's certain but the unforeseen
If you think I'll bend
You're sadly mistaken
Desperate times
Call for desperate measures

Because I could not stop for death
It kindly stopped for me!
The carriage held but just ourselves
Alongside rode immortality...
You tend to choose your poison
Here I lie when it promised me death on my last breath

Defeat does not exist!
Desperate times
Call for desperate measures
Desperate!
