

## Driving Down the Darkness

DevilDriver

Beat-Down through worlds  
This time it's crossed the line  
Beware of what's behind  
Wolves coming quick to kill you  
Currents running strong  
Think you're right, wrong  
Look, it's long gone  
Look, it's long gone

Stick to yourself  
Hold your own  
Stay strong in the sight of insanity

Driving down the darkness  
Stricken by the madness  
Praying for forgiveness  
While you play God(With my life)

Me against them, no stopping  
Time for action, no talking  
If it rears its ugly head  
I'll cut it clean off  
Change this, change that  
Change this, change that  
My ears are burning from all the talking  
Time for fuckers to start walking

Stick to yourself  
Hold your own  
Stay strong in the sight of insanity

Driving down the darkness  
Stricken by the madness  
Praying for forgiveness  
While you play God(With my life)

I'll pray for you  
Your prayers come true  
That I don't come for you

Driving down the darkness  
Stricken by the madness  
Praying for forgiveness  
While you play God(With my life)
