Fate Stepped In

Fate!

Peddlers, pushers, insects The chants, charms Blood sweat and beer I've got bones to throw

It's no secret Secrets aren't bought and sold You gotta pay With your heart and soul

We're all laid low by the hand, So get your head up Get your head up outta the sand, So get your head up The lion will eat the heart, Serpents coil from the start What did you hope to achieve?

Along side rides, one with great destiny

Fate stepped in to lend a hand again Fate stepped in to lend a hand Fate stepped in to lend a hand again Fate stepped in to lend a hand

Echoes from the grave!

Potions, oils, insects Their chants, charms Blood sweat and beer I've got bones to throw

It's no secret Secrets aren't bought and sold You gotta pay With your heart and soul

We're all laid low by the hand, So get your head up Get your head up outta the sand, So get your head up The lion will eat the heart, Serpents coil from the start What did you hope to achieve?

Along side rides, one with great destiny

Fate stepped in to lend a hand again Fate stepped in to lend a hand Fate stepped in to lend a hand again Fate stepped in to lend a hand

Echoes from the grave! From the grave (2x)

DevilDriver

Watching the vultures swarm Like being tied down In the midday sun
