

# For What It's Worth

DevilDriver

Known to kick down doors  
Settle old scores  
Can't take anymore  
Do what you can't ignore  
My faith you did restore  
I'll cut this to the core  
If they ask for more  
They will get war!

I wake up every night  
Scared I'm born to lose this fight  
Don't cry  
Dry your eyes  
Hold your tears  
No more fears!

For what it's worth  
I would move heaven and earth  
Even kill at will  
Be still this beating heart of mine!  
This beating heart!

Red we had nothing  
Fought for everything  
This family's ours  
It's fucking everything  
My faith you did restore  
I'll cut this to the core  
If they ask for more  
They fucking get war!

I wake up every night  
Scared I'm born to lose this fight  
Don't cry  
Dry your eyes  
Hold your tears  
It's no more fears!
