Destroy all or nothing I dreamed I died, ended up at the gates of Heaven Greeted by a man Saint someone, said how's the ride son? It's been alright, at times a little rough, why am I here? You did alright, lived a little dark and that's alright 'Cause we made the darkside and the rightside is to have no fear, no fear My whole life flashed in front of me I saw everything that I was and what I had done Even let me look back on some good times for a little fun Yes, a little fun And then I heard damn boy you done good Did the every little thing that you could And then I heard damn boy you done good Damn good When you hear the call, bury them all Destroy all or nothing When I hear the call, I will bury them all destroy all or nothing When the sky opened up and the clouds parted clear There wasn't any doubt to why I was here knew I'd done a good job, the best job that I could do So now it was time to move on, to get on, to get back To the question of why I was here and what I had learned, no fear My whole life flashed in front of me I saw everything that I was and what I Even let me look back on some good times for a little fun Yes, a little fun And then I heard damn boy you done Did every little thing that you could And then I heard damn boy you done good Damn good When you hear the call, bury them all Destroy all or nothing When I hear the call, I will bury them all I will destroy all or nothing My whole life flashed in front of my eyes Goddamn, wake up, bad dream, bad dream When you hear the call, bury them all Destroy all or nothing

When I hear the call, I will bury them all
