

# Lend Myself to the Night

DevilDriver

These spirits exact a heavy toll  
I've had it  
Thrown caution out of the window  
Let evil in at times...  
Paid an exact price for all my crimes  
Bathed in blood but came out...  
Clean as a holy shrine

Lend myself to the night  
Thrown myself to the wind, fuck it!  
It's worth the risk, it's worth the risk  
It's worth believing in

Bells ringing in the eyes of fire  
I've had it  
Watch what you seek, it really exists  
Let evil in at times...  
Paid an exact price for all my crimes  
Bathed in blood but came out...  
Clean as a holy shrine

Lend myself to the night  
Thrown myself to the wind, fuck it!  
It's worth the risk, it's worth the risk  
It's worth believing in

True, I've been there and back again  
Found myself face down on the tracks, face down
