

Shudder

DevilDriver

Unholy offspring of lightning and death itself
You run the blockade
I drink the blood of Angels

Violets and violence, the perfect feast
One lays first at the other's feet
I was a fool to trust you
Was the fool you trusted
Ashes to ashes
From dust to rusted

Refuse to compromise

Shudder to think
What we gain once we lose everything
Shudder to think
We refuse to compromise
Silence speaks louder than those tears you cry!

Shudder!
I shudder to think![2x]

Violets and violence, the perfect BEAST
I've laid you fucking pride down at my feet
I was a fool to trust you
Was the fool you trusted
Ashes to ashes
From dust to rusted

Refuse to compromise

Shudder to think
What we gain once we lose everything
Shudder to think
We refuse to compromise
Silence speaks louder than those tears you cry!

(I'm gonna take this world
Dodging the strife
Riding the rails again in this life
Hearing death, feeling godly
Searching for medicine in the melancholy)
I'm gonna take this fucking world!

This fucking world!

Take this world!

Take this fucking world!

We refuse to compromise

Shudder to think
What we gain once we lose everything
Shudder to think
We refuse to compromise
Silence speaks louder than those tears you cry(2x)

Shudder!

I shudder to think! [3x]
