

# Trust No One

DevilDriver

There's always a need for violence  
Slowly singing to the somber sun  
Give my regards to the ones you call your angels  
Dusted I'm the only one  
I need to deaden all my feelings  
When you comes to you  
And should you rise again  
I'll have no choice but follow through  
I need to deaden  
All my feelings  
Should you rise again  
I'll have no choice but follow through  
If threatened just know  
I'll respond in kind  
Say the word  
The word is blind  
If threatened just know  
I'll respond in kind  
Say the word  
The word is attack!

Say your lamentations  
Set sail for hell or damnation  
No honest words, on your lips  
Confronted, think quick!

I've used it  
I've abused it  
It's abused me  
It's confused me  
And consumed me  
I've been destroyed by trust  
My heart can't erase it  
Now I'm so fucking wasted  
I can taste it  
I've been destroyed by trust

Heard you say there's no need for violence  
As you slowly sickening walk away  
Give my regards to the ones you call your angels  
Dusted I'm the only one  
I need to deaden all my feelings  
When you comes to you  
And should you rise again  
I'll have no choice but follow through  
I need to deaden  
All my feelings  
Should you rise again  
I'll have no choice but follow through  
If threatened just know  
I'll respond in kind  
Say the word  
The word is blind  
If threatened just know  
I'll respond in kind  
Say the word  
The word is attack!

Say your lamentations  
Set sail for hell or damnation  
No honest words on your lips  
Confronted. think quick!

I've used it  
I've abused it  
It's abused me  
It's contused me  
And consumed me  
I've been destroyed by trust  
My heart can't erase it  
Now I'm so fucking wasted  
I can taste it  
I've been destroyed by trust

Trust no one!

My heart  
Can't erase it  
Now I'm so fucking wasted  
I can taste it  
I've been destroyed by trust  
I've used it  
I've abused it  
It's abused me  
It's confused me  
And consumed me  
I've been destroyed by trust  
By trust

Trust no one...

If you apologize,  
Will it all, just go away in my eyes...  
If you apologize?!
