

# Let Me Know It's Real

Devin the Dude

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

We've been knowing each other for quite a while yet we just start dating  
You know, I wanna slide inside but you got me waiting  
So I'm skating to the side, no longer can I provide  
For someone who try to hide what's between them thighs

And right now I know, you're horny and I'm lonely myself  
Don't cheat me, treat me, beating my meat ain't that good for my health  
So no choice left but to leave and try to fuck a freak  
That'll suck a meat, don't wanna kiss and still brush her teeth

I got respect but my dick get out of pocket  
See a fine bitch, fuck her, yep, I got her  
'Cause I must get mine, you try to get yours  
And I see through them counterfeit whores

That certain niggas choose now, they wish they wouldn't had  
'Cause they abuse a nigga, use a nigga, do a nigga bad  
And they gone like a target through the cone  
And I don't like being alone, I want

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

Now understand I'm just a man, no higher, I have desires  
If I say I didn't want no pussy I would be a liar  
But that's not it, for me pussy's easy to get  
But I would bet yours is the perfect fit

I know it's soft and wet  
Warm and wide, wantin' this bone inside  
'Cause you have needs too  
We can satisfy each other, just me and you

And I wouldn't have to linger putting my finger up in some other cat  
Feelin' secure, knowin' exactly where my lover at  
When I come back it's in the bedroom purrin'  
Find the both, put my spoon in and start stirrin'

And fill you up from the bottom to the top and  
Ain't no stoppin' after panties droppin'  
Your mind is on shopping, mine is on fucking  
'Cause nothing from nothing leaves nothing and

I want something that I can get into

Gimme something I can touch and feel  
I need something to let me know it's real

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

And I've been very patient, been waiting and conversating  
But all this hesitation kinda got me contemplating  
Wanna ask you, how come you refuse to give it to me  
For these last three albums, I've been tryin' to get the pussy

I'm not tryin' to run game, trick you or double dare ya  
If I take off my draws don't let these big nuts scare ya  
I've been thinking I can make ya ooh and moan  
Let me know if you do or you don't 'cause I want

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real

I want something that I can get into  
Gimme something I can touch and feel  
I need something to let me know it's real
