

# Me, You

Devin the Dude

(2x)

Me, you  
We oughta see what we can do

S'cuse me, I ain't tryin' to be  
All up on you  
But, damn you so fine to me!  
Would offer you a drank  
I see you already got two  
Let me know when you finished those, I got you!  
I'll be coolin' in the corner, smokin' marijuana  
With some partners of mine  
Hey! And if you got the time  
Maybe we can meet back at the show  
I know a few places that we can go  
We can just cool out, chill, relax  
Food, wine, beer, and a sack  
Of weed that I got from Amsterdam  
Yup, overseas - come, go with me!  
When it's time to slide  
You oughta step inside my ride  
You know when the club might end  
Let's get away from your nosy-ass friends  
It'll just be...

Me, you  
We oughta see what we can do

You say that you plan to get tipsy, so your homegirl's  
Drivin'  
You been drinkin' just as much as I've been!  
We at the same level, you can speak your mind and  
Clear your thoughts, let out the freak sometimes!  
I've met a lot of bitches, quite a few hoes  
Ran across women and I like those  
And I can tell, the way that you's a real woman  
And the +Noodles+ that you cook are not +Roman+  
But more like egg fettuccini  
You never have to beg for a penny  
And I just wanna know ya, I wanna try to show ya  
Maybe I could mow yo' yard  
And I cut well  
And my motor is self-propelled  
Don't worry about nothin', I won't tell!  
You know, no tools  
And it'll just be...

Me, you  
We oughta see what we can do

I see the club 'bout to close  
Lights turnin' on, people bustin' out the do's  
And I ain't finna' run after no hoes  
My mind's made up, have you made up yo's?  
You the woman I chose  
I respect your mind  
I ain't just tryin' to dick and dine

I'm tryin' a good time  
You've been deservin' it  
Chill at my crib, have a drank, smoke erb a bit  
Go tell your girl you gon' be alright  
'Cause you gonna be chillin' with me tonight (Ha-ha!)  
That's just a friendly invite  
Curious about me, I'll give you more insight  
A little later  
A whole bunch of shit up in the 'frigerator! (Ha-ha!)  
Awwww, shit!
