

# Where Can We Go

Devin the Dude

Don't even tease me like that girl  
I wanna holla at you to, but man you know you gotta man  
It's too close to home, it's too close for comfort girl  
Anyway man, I wouldn't even...yo check it out

Where can we go, and nobody would know  
What can we do, without them seein' me & you  
What will we say when we finish fuckin' at the end of the day  
Where can we go...we can't go nowhere

We can't go nowhere we can't even think about it  
We might as well just chill talk on the phone  
Cause there ain't no use goin' out in public  
Unless you sayin' fuck it and let everyone know

Yo we gotta keep it safe  
Cause if he knew we were together he'll be all off in your face  
Wonderin' what happened with us, drillin' you with questions  
You can save yourself from hurt feelings and the fussin'  
Now you know I'm involved too  
So I thought you would agree with what I'm sayin'  
We can't go around playin' with these peoples hearts  
We can't be sneakin' off in these streets creepin'  
Without at least one your friends peekin'  
It's felony, yellin' and tellin' your man  
And me and him is cool so he wouldn't understand  
Yo, I got respect for my dawg  
But I keep having visions of him naked and all  
I shoulda told you that but it's a fact  
I put this thang up in your back  
Girl, you wouldn't know how to act..  
But we, both know that it's wrong  
So we might as well just leave it alone

Where can we go

We can't go nowhere, we can't do nothing  
Now I can only imagine havin' ya legs and that ass  
And you screamin' out...ya but see that wouldn't be fair  
And is it really worth it, you wouldn't feel guilty at all  
And know I will when my gal wash my filthy draws  
Maybe we should all go out together, give 'em room to slip  
And when they stare at each other we'll have a reason to trip  
But, nah, that plan ain't cool  
Cause if they hook up with each other we'll look like fools  
Check it out, let's just have phone sex  
I get your thong wet, you can get my bone erect  
But that's cheatin ourselves, and see I wanna be pleased  
I wanna slide in and slide out with ease  
You tell me that your lonely, and I can come save ya  
I thought about it, shit but you got some nosy neibours  
We can take a chance but we just might lose  
But where can we go what can we do

We can't go nowhere, we can't do nothing [2X]
