

## Feather

Devin Townsend

Hey little one, think about our time  
When all the pain we've overcome  
Hey little one, think about a time  
When all the boys are older.  
All I'll ever think about is you  
And you'll be there when we are through.  
And all are drinking from our hearts  
Of all the love that comes apart  
Is all for you or all for 'I'?  
I want to wait until we die  
You're here afraid yet still you try,  
As life for me is life through 'I'  
If all for three is all for five  
Then we'll have peace until we die  
Close your eyes and go to sleep  
Close your eyes and go to sleep  
Peace to you...  
Peace to you...  
Peace to you.  
Hey little one, think about a time  
When all the waves and oceans rise  
Hey little one, think about a time  
And all the way, you loaded all your dolls and toys  
into the car,  
...and we are here while you are far  
And all I ever think about is you,  
It's only father feathers.  
It's only feathers.  
They say heaven was in tune, your point of view,  
I try to see your point of view  
The door opens into your eyes  
And I have wondered when we die  
He won't have due this falling ride  
As I'll have to already child  
So all for you and all for I  
Lets just forgive and let this child...  
So all for you and all for I  
So lets forgive and let this lie...  
Close your eyes and go to sleep  
Close your eyes and go to sleep  
Peace to you...  
Peace to you...  
Peace to you.  
Peace to you  
Peace to you  
Peace to all  
Peace to you  
Peace to all  
Peace to all  
Generally we are a lonely people  
Generally we are alone  
Generally we are alone in lonely worlds  
Generally we are a lonely people  
Generally we are alone, alone...  
Generally we are alone in lonely worlds  
Generally we are a lonely people  
...Generally we are alone

Generally we are alone.  
Peace to you
