

Ghost

Devin Townsend

How, everybody?
How about a body at moonlight
How about a body at home
How about a body at moonlight,
How our body's alone
I don't want to bother your moonlight
I don't want to bother your soul
I don't want to bother your moonlight
How our body's alone
Say, Cold
Cold,
Cold.
How about a body at moonlight
How about a body at home
How about a body at moonlight,
How our body's alone
I don't want to bother your moonlight
I don't want to bother your soul
I don't want to bother your moonlight
How our body's alone
Say, Cold
Cold,
Ghost.
Tonight.
Bathe in the light...
It's alright.
Say, Cold
Ghost...
Ghost...
I'm out of body at moonlight
I'm out of body at home
I'm out of body at moonlight
How our body's alone
I don't want to bother your moonlight
I don't want to bother your soul
I don't want to bother your moonlight,
How our body's alone
Tonight, tonight.
Soothe your mind.
