

# Trainfire

Devin Townsend

How in the world we gonna make everything alright?  
How in the world we gonna make everything in time?  
Train burning, all night burning...  
Trainfire up and down the line.

How in the world we gonna make everything alright?  
How in the world we gonna make everything in time?  
Train burning, all night burning...  
Trainfire up and down the line.

Sex sees seventeen year old  
Moving me up and down the poll  
You won't tell me what I need to know  
So the train burns, all night burns, Trainfire up and  
down the line.

Move me,

How in the world we gonna make everything alright?  
How in the world we gonna make everything on time?  
Train burning, all night burning...  
Trainfire...

Trainfire up and down the line!

Sex sees seventeen year old  
She don't tell me what I need to know  
Train upon the quantum, a Kai, the string theory...  
Trainfire up and down the line!

Trainfire, trainfire, trainfire...

So, you called my name  
Left on a weary road beyond your ways  
May all the other colors of your name  
...go.
