

# Triumph

Devin Townsend

Calling, it's calling, I can't stay here  
...Knowing there's no higher  
Going, I've gone for so many years...  
...Going makes me tired.  
And they said it was this and they said it was that  
And they said it was this and they said...

But it's...

Call for me Jesus, I'm waiting here  
Knowing I'm a liar  
Knowing I've known more than half my share...  
Knowing bade this triumph  
...and they said it was this  
...and they said it was that  
And they said it was this and they said...

But it's...

WHAT?!?!

Hooray for Dr. Young  
Hooray for earth born and son  
Hooray the time has come...  
We vanish once again

One word - Collective  
Mankind - CONNECTED

Never going to die, we're always gonna live forever... ever...  
Every day  
With my skies of grey. In my fields of green...

I've been all I've been  
Only for the ego in me  
Hide from the apocalypse around.
